COMMUNITY CONNECT CENTER

Empowering displaced Newcomers with the resources, unity, and sense of belonging they need to thrive in Fargo Moorhead.

In our rapidly evolving economy, your operations are only as strong as your communication. When you manage a diverse workforce or serve an international client base, "getting the gist" is not enough.

Ambiguity slows down production, creates safety hazards on the floor, and invites critical legal risks. Clear communication is no longer just a community relations initiative — it is a strict operational requirement.

Community Connect Center (CCC) is Fargo-Moorhead's premier partner for professional, certified translation and interpretation. We serve the region's top law firms, healthcare systems, and manufacturing facilities, providing fast, localized, and legally compliant documents that keep your business moving forward.

THE CCC ADVANTAGE

Why industry leaders choose us over faceless, online translation portals.

Native-Fluency Experts: We don't rely on automated software. Your documents are translated by human

professionals who understand nuanced regional dialects, cultural context, and industry-specific terminology.

Mission-Driven Impact

We are more than an agency. Every project you book with CCC directly funds the integration, education, and stabilization of the New American workforce in the Fargo-Moorhead area. By partnering with us, you are actively investing in the infrastructure of your own labor pool.
